

Purpose

- **Mika's House** will provide the necessary time for parents and caregivers to rejuvenate in order to care for the extraordinary needs of their children.
- **Mika's House** will provide the local public school districts an alternative setting for children with special needs.
- **Mika's House** will include children with Prader Willi Syndrome, Autism and Down's Syndrome.

Additional Benefits

- Respite care services extend from a few hours a day up to 14 days.
- Child to Staff ratio is 2:1
- Financial aid may be offered to families in need when available.
- A pre-planned daily/weekly schedule of activities will be available to the parents.
Adjustments will be made to accommodate their child's special needs.

Mika's house shares an easement with Kiwanis Park in Renton, Washington.

The quiet, serene environment brings children together into a community of their own.

The 3000 square foot home offers parents a designated area to visit with their child while the rest of the home is dedicated to the kids!

*"A safe place for families in need of
respite care"*

Mika's House

Enter with a Happy Heart...

Each bedroom is decorated with bright, uplifting colors and uniquely furnished for each gender.

The learning center is a fun-filled room with 4 computers and a family table for all to share in homework assignments. This room was created with the School Districts in mind; the environment will allow Special Education Instructional Aides to assist students with their Individual Education Plans (IEP).

The school hours of 8:00am to 2:30pm is not always optimal for student learning. This schedule is especially difficult for students with special needs.

Here they will have a comfortable place to rest in between tasks, learn at their own pace, and in a non-intimidating setting.

Mika's House is a dedicated community for children with disabilities where they can be accepted as individuals and build relationships with their peers.

Our community fosters a loving family environment with a strong emphasis on compassion, sharing and dignity.

The social development room boasts a big screen television with an array of interactive games and movies.

The Wii is the big hit in this room!
